SPACE HUMIDITY:	41.6 %

How do you want to see your facility?

A Tracer™ building automation system becomes a window into a facility professional's prime mission: managing the facility or portfolio of buildings they are responsible for. Trane systems and interfaces provide a number of ways to view and control building data.

Customers can select from two options for the style graphics provided with a turnkey BAS project:

- 2-dimensional (2D)
- 3-dimensional (3D)

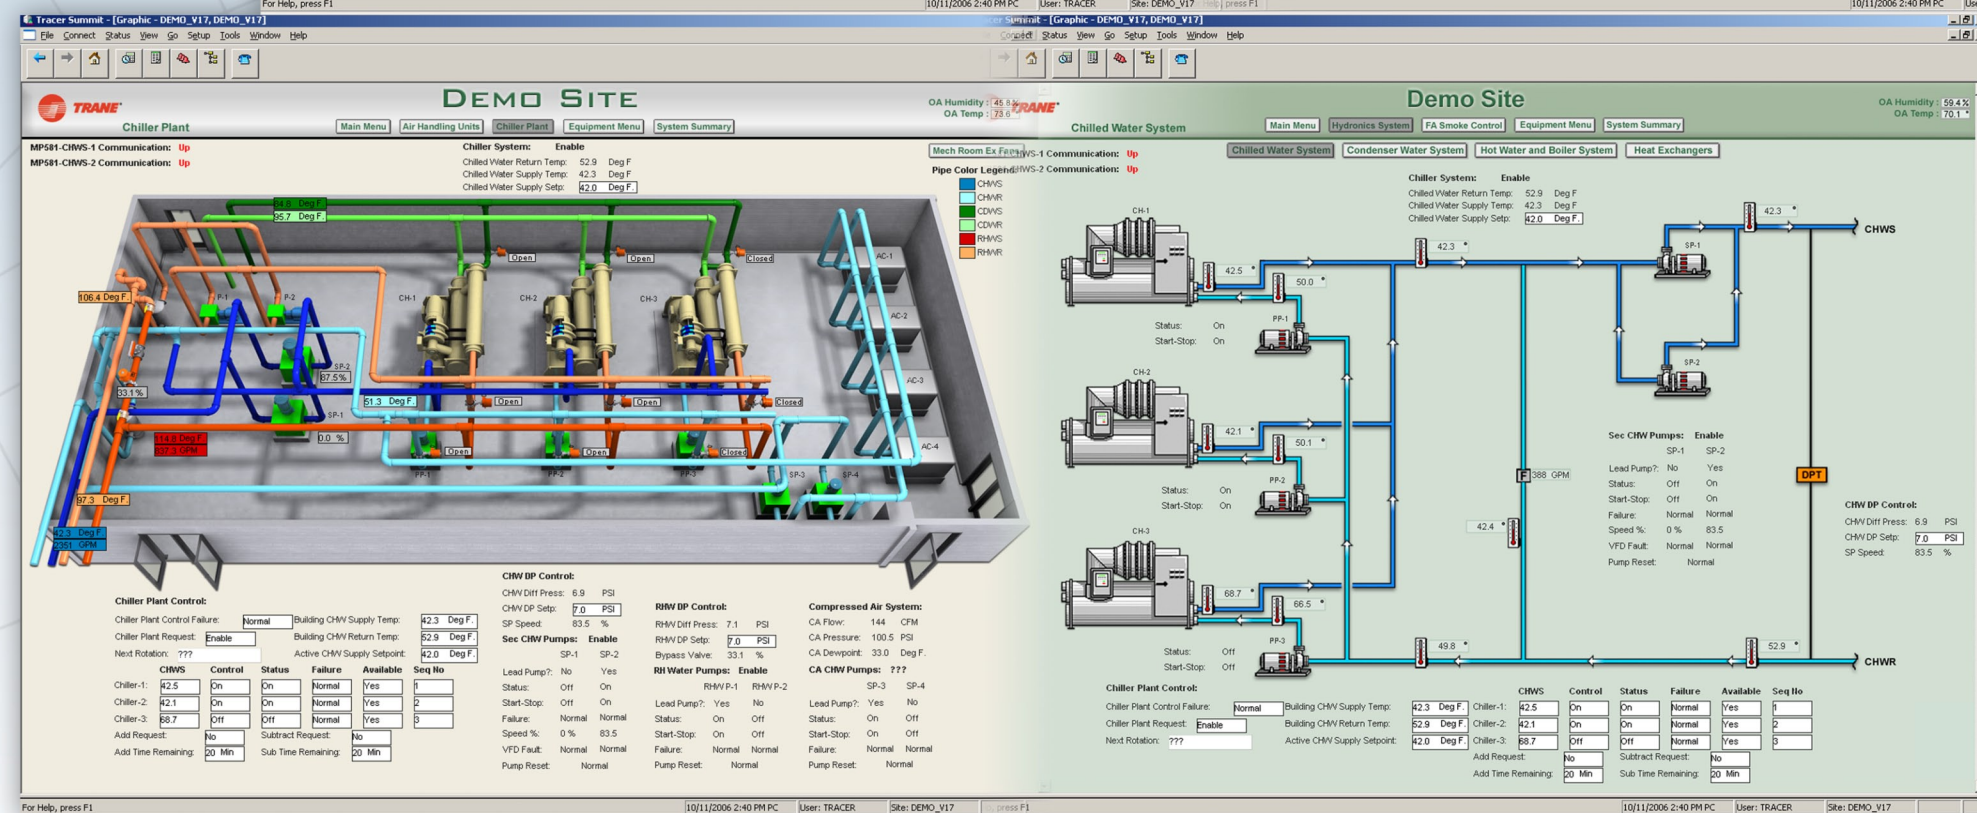

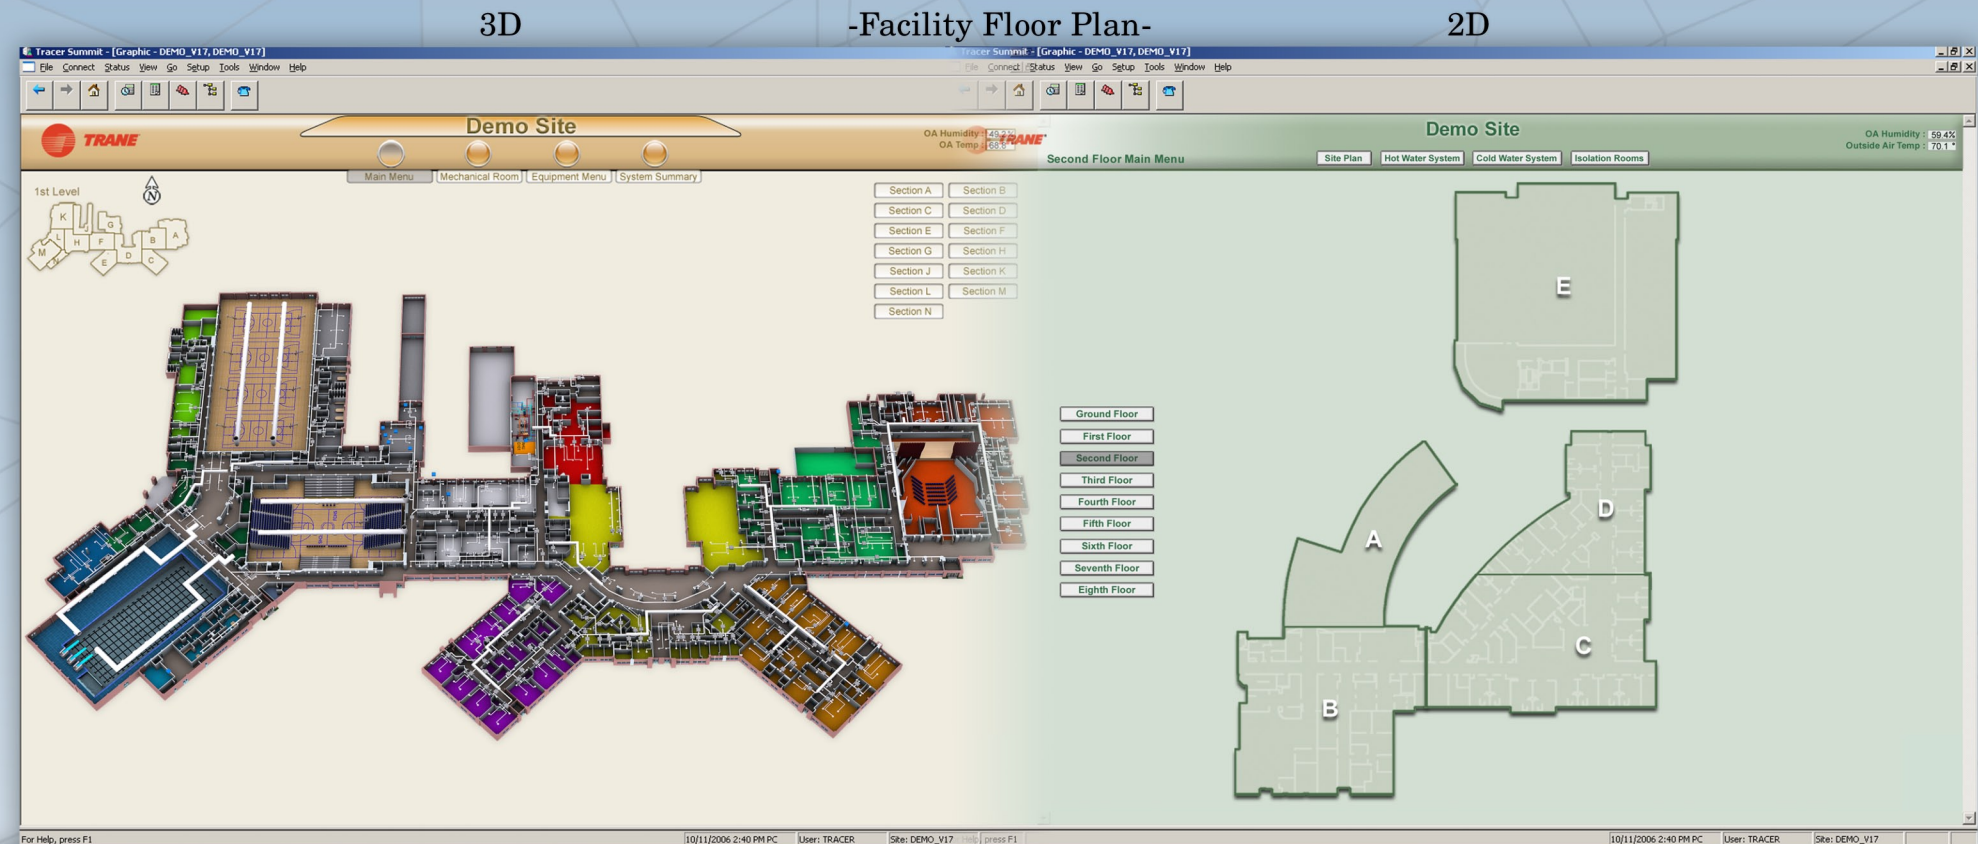

3D graphics provide an added dimension of realism and help operating staff visualize their actual facility.

Contact your local Trane office to find out more information about the best way to see your facility.

“Graphics help our staff quickly grasp what's happening in the systems and spaces.”

Type of Graphic	Standard Project	Upgraded Graphics (3D)
Building exterior	None	3D
Floor plan	2D	3D
Tenant space or room	2D	3D
Mechanical room	2D	3D
HVAC unit(s)	3D*	3D

*3D graphics of equipment are included in standard projects.

3D -HVAC Mechanical Room (Chiller Plant)-

2D
